**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

This request is for extension of a currently approved information collection.

The king and Tanner crab fisheries in the exclusive economic zone of the Bering Sea and Aleutian Islands, Alaska, are managed under the Fishery Management Plan for Bering Sea and Aleutian Islands King and Tanner Crabs (FMP). The North Pacific Fishery Management Council prepared the FMP under the Magnuson-Stevens Fishery Conservation and Management Act as amended in 2006. National Marine Fisheries Service (NMFS) manages the crab fisheries in the waters off the coast of Alaska under the FMP. Regulations implementing the FMP and all amendments to the Crab Rationalization Program (CR Program) appear at 50 CFR part 680. Program details are found at: <http://www.alaskafisheries.noaa.gov/regs/680/default.htm>.

The CR Program balances the interests of several groups who depend on the crab fisheries. The CR Program addresses conservation and management issues associated with the previous derby fishery, reduces bycatch and associated discard mortality, and increases the safety of crab fishermen by ending the race for fish. Share allocations to harvesters and processors, together with incentives to participate in fishery cooperatives, increases efficiencies, provides economic stability, and facilitates compensated reduction of excess capacities in the harvesting and processing sectors. Community interests are protected by Western Alaska Community Development Quota

allocations and regional landing and processing requirements, as well as by several community protection measures.

The NMFS established the CR Program as a catch share program for nine crab fisheries in the BSAI, and assigned quota share (QS) to persons and processor quota share (PQS) to processors based on their historic participation in one or more of these nine crab fisheries during a specific period. The CR Program components include QS allocation, PQS allocation, individual fishing quota (IFQ) issuance, and individual processing quota (IPQ) issuance, quota transfers, use caps, crab harvesting cooperatives, protections for Gulf of Alaska groundfish fisheries, arbitration system, monitoring, economic data collection, and cost recovery fee collection.
